“Train up a child in the way he should go, and when he is old he will not depart from it”

(Proverbs 22:6)
How are we doing at preparing for ourselves:

“A GOOD ACCOUNT BEFORE THE AWESOME JUDGMENT SEAT OF CHRIST”
We Can “Kiss Our Youth Goodbye”

~ Millennials (aged 18-29) are over 2.5 times more likely than their adult parents to be unaffiliated with the Church²

9. Youth Stewardship

The science shows that the weak understanding and practice of stewardship among youth and emerging adults is the result of the lack of effective stewardship teaching and practices by adults/parents.
Youth Stewardship

➢ What have you taught your children about the stewardship of God’s gifts?

➢ What have you modeled for your children regarding your personal stewardship

➢ Avoid the “Dollar Club” mentality ($1.00 in the tray in 1955 = $8.38 in 2017)

➢ (10/10/80 Rule) First 10% of income is your tithe; the next 10% is saved for retirement and you live on the remaining 80%

➢ What do millennials and younger think of when you mention stewardship?
Youth Stewardship

~ If you do not have a youth stewardship program that teaches true stewardship, you have determined your Parish’s unfortunate future.

~ The Science of Generosity Studies remind us that it is critical to teach youth that stewardship over their gifts from God is a cradle to grave responsibility.
Youth Stewardship

• There must be a separate Youth Stewardship program in the Parish
  ~ Different messages and solicitations change depending on their age
  ~ Use understandable examples/messages
  ~ Include ALL youth in annual Parish Stewardship Campaign (youth offer their own separate stewardship pledge)
  ~ Youth stewardship pledge must also include a pledge of time and talents and not just treasures
  ~ Monthly stewardship messaging is important (in Sunday school, in church and at home)
Youth Stewardship

• There must be a separate Youth Stewardship program in the Parish
  – Sponsor many different service opportunities (including mission trips)
  – Use creative processes to help youth start to discern their gifts and stewardship callings
  – Send monthly materials home for parents to reinforce the teaching and messaging in the Sunday School/Parish
  – Recognize youth who practice stewardship in the Parish bulletins and other media and in church (have them offer testimonials in church)
Youth Stewardship

• There must be a separate Youth Stewardship program in the Parish
  ~ Have older youth mentor younger youth on good stewardship behaviors and practices
  ~ Offer a wide array of stewardship opportunities for your youth to allow them to use their different gifts
  ~ TEACH THE TITHE
  ~ Teach 10/10/80 Rule (invest the 1\textsuperscript{st} 10\% of income in stewardship, the 2\textsuperscript{nd} 10\% in savings for your future and retirement, and live on the remaining 80\%)
7. Youth Discipleship

The science shows that the weak understanding and practice of the faith among youth and emerging adults is the result of the lack of effective spiritual education teaching and practices by adults/parents.
#7 Engaged Disciples Practices

**Spiritual education**

- A disciple requires education
  - It took the Apostles 3 full years of one on one education with the Lord, and even then they didn’t get it

- The *National Study of Youth & Religion* proved that the shallowness of the faith understood and practiced by youth and emerging adults is the direct reflection of a shallow faith passed on by their parents
Your Parish must create programs to train parents on how to:

- Follow up and reinforce what their children are being taught in Sunday School and in the Homily
- Discuss with their children what their faith means to them and how they live it in their daily lives
- Engage in dialogues (not monologues) on contemporary moral issues with their children
- Provide useful and effective spiritual education resources for their children
Youth Discipleship
Provocative Question

• The average American family in 2012 spent approximately $671 per child - per year on just sports training and costs (Forbes)
  – 21% of parents spent more than $1,000 per child

• Activity Hero estimates that the average American family currently spends about $2,400 per child - per year on enrichment support

• How much have you spent on spiritual enrichment support?
Why are we so willing to enrich the educational, athletic and artistic development of our youth/emerging adults, but NOT as willing to spend the money to invest in their more important spiritual health by funding a full time church youth director?
~ “You cannot master what you do not measure.”

~ How are you measuring the effectiveness or results of all of your youth programs?

What Is The Biggest Challenge Facing Your Parish?

• Entropy
• Everything in the universe eventually moves from order to disorder (entropy measures that change)
• If you don’t make positive changes you will get negative changes

Current studies of generosity come from many different and often disconnected disciplines and focus on various terms, such as philanthropy, volunteerism and altruism. The Science of Generosity initiative aims to bring together diverse approaches in order to create a field for the study of generosity in all its forms.

5 Big Summary Ideas From The Science of Generosity Studies
The research shows:

1. Each person usually decides whether or not they will be generous, and a giver, at a fairly early age.

2. That generosity decision forms their adult practices.

3. Reinforced by years of generosity, it becomes a habit, and being a good steward is cemented in their adult behaviors and DNA.
Science of Generosity Studies

The research shows:

4. People who give a lot of time and money had parents who did the same things

5. Our own stewardship bad habits and lack of education is being replicated in our youth and emerging adults
The Science Of Generosity Studies
Identified 6 Basic Conclusions
Conclusion #1 (Cognitive Decision):

1. After thoughtful reflection, people form an existential opinion about themselves and their generosity at a fairly early age.

2. It’s shaped initially by their parents and the behavior of other adults important to them.

3. If they don’t decide to be generous when young, a parish can help people confront the key question: “What kind of person do I want to be?”
Are you generous?

Have you taught generosity?
Conclusion #2 (Routinization of Giving):

1. After they form a personal generosity opinion, people look for easy and routine ways to be generous.

2. Parishes must make sure to have easy electronic and other routine giving options.

3. Parishes should have a standard donor giving timetable (campaign) and process (including your youth).
Does your Parish facilitate easy giving?
Science of Generosity Studies

Conclusion #3 (Culture of Generosity):

1. People model the behavior of their peers and those around them.

2. A Parish should create and communicate a culture of generosity, and social networks that support generosity, for members to see themselves as a part of that generous culture.

3. “There are no lone givers” - peoples’ giving is affected by who they know and how generous they are.
4. Encourage creative ways for your youth to decide to become generous.

5. Get generous givers to talk constructively (not brag) about the joy their giving brings them.

6. Encourage (do not shame) people to be generous in a variety of creative ways.
Has your Parish created a culture of generosity and a social network to promote it, including your youth?
Science of Generosity Studies

Conclusion #4 (Church Giving Facilitation):

1. Regular church goers generally give more money and are more generous

2. Generosity is improved when a church makes a religious call to give

3. You have to ask and remind - not constantly, but consistently

4. Talking about needs or paying bills does NOT work at creating true and sustainable stewardship behavior - “people give to mission and vision”
Has your Parish created regular processes to share its vision and life-changing ministries and then solicit generosity?
Conclusion #5 (Parents Teaching):

1. Parents must proactively and explicitly teach their children about giving generously.

2. Kids watch and mimic adults’ visible behavior.

3. Parent’s generosity is usually invisible to their children, so you need to make it visible and talk about it to show them how you live, and how they should live.
Has your Parish created a social network of generosity, including your youth?
Conclusion #6 (Attitude of Abundance):

1. Parishes need to cultivate an attitude of abundance and gratitude, not scarcity, since most of us have plenty in our households.

2. Attitudes of abundance have been shown psychologically and biologically to cause people to reframe their reality and allows people to become generous.
Has your Parish communicated an attitude of abundance (or have you been communicating scarcity and crisis)?
