

2020 VISION

2020 Vision - the **Gold Standard** of seeing clearly.

What did we really see and learn in the unprecedented year of 2020 - the year too many “*first stones*” were thrown at you and others?

A deadly pandemic! Unprecedented isolation! Social unrest!

Divisive discussions/elections! Closures of all economies and churches!

Can we make any sense of this? How can we survive the remainder of the year without losing our faith and hope? How can we improve the rest of this year and look forward to a clear “2020 vision” in 2021 and beyond?

As it turns out, there are 3 very specific, practical and divinely inspired things you can do to improve, and make a positive difference, in your life, communications, attitude, family, community, church and world.
